Re: UDO-TA-014-014

Comments: Regarding the staff report for RZ-014-025, I would like to note (according to several sources) there was a camp in operation on the Tree-Tops site from 2002 to 2008. My report indicates that the Family Center's plan for creating a camp at Tree-Tops did not come to fruition. My point was in fact that a permanent camp was not created due to the organization falling on hard times and being subsequently merged with Thompson Child & Family Focus.

Having not been here during most of the Tree-Tops dealings I sought to create a "Cliff-Notes" version of what happened. One of the sources I relied upon to do this was an article by the *Charlotte Business Journal* dated April 13th, 2012. This article did not mention that a camp was operated from **2002 to 2008**.

Thanks...
